Re: Energy East Pipeline Project

To Whom It May Concern:

At our Town Council meeting on July 21, 2015, Council for the Town of Vermilion approved a letter of support to TransCanada for the proposed Energy East Pipeline Project.

In recent years, our community has benefitted in many ways from similar projects, with respect to Economic Development, community support and overall current and future value of the development of our community. The overall impact of the oil and gas industry in our community, region, province; and nation cannot be underestimated. In the recent downturn in the industry, communities such as Vermilion have felt the negative impact on jobs, development and overall community involvement.

We encourage TransCanada to keep pursuit of this initiative, and offer our support towards the Energy East Pipeline Project.

Sincerely,

A handwritten signature in black ink, appearing to read "Bruce MacDuff". The signature is stylized and written in a cursive-like font.
