**RESOLUTION:  
ENERGY EAST PIPELINE PROJECT**

**WHEREAS** TransCanada Pipelines desires to implement a pipeline called the Energy East Pipeline, to safely transport approximately 1.1 million barrels of oil per day from Alberta and Saskatchewan to refineries in eastern Canada and a marine terminal in New Brunswick;

The Energy East Pipeline Project involves three major components; pipeline conversion (natural gas to oil), construction of new pipelines and construction of new pipeline facilities;

TransCanada Pipelines has filed a Consolidated Application for the Energy East Pipeline Project to the National Energy Board.

The City of Medicine Hat owns and produces oil and gas assets that could benefit from the pipeline capacity of the Energy East project. This letter is to confirm that on August 2, 2016, the Medicine Hat City Council unanimously passed the following resolution:

**“THEREFORE BE IT RESOLVED THAT** the community of Medicine Hat believes it is in the best interests of the residents of Medicine Hat, Albertans, and Canadians, that TransCanada Pipelines receive regulatory approval to proceed with the development, construction, and implementation of the Energy East Pipeline Project.”

Dated at Medicine Hat, Alberta this 5<sup>th</sup> day of August, 2016.
