To Whom It May Concern:

The Municipality of Two Borders would like to offer their support to TransCanada for their Energy East Pipeline project.

Although our municipality is not directly affected, we recognize and appreciate TransCanada's efforts in regards to keeping all parties informed during this lengthy Regulatory process. "The Project" will have a huge impact on Manitoba as it progresses across the region and we, here at Two Borders believe that TransCanada has proven their professional ability to address community concerns on the economic, environment and transportation safety perspective of Energy East.

Please feel free to contact the Two Border office for any further information you may need.

Sincerely,

Grace Carr, CAO  
Chief Administrative Officer
